

From the Principal's Desk

Dear Parents,

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations"

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. At Holy Angel's High School we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. Students need to be provided with a platform to think, express, and exhibit their skills. It is necessary to empower them to negotiate several issues that confront them, with the teacher being a facilitator.

The school is striving hard to make the best possible efforts to inculcate strong values combining with academics and extra-curricular activities in the children. Converting every individual into a self-reliant and independent citizen, the school provides an amalgam of scholastic and co-scholastic activities.

No wonder, a student harnessed in such an atmosphere has every hope and possibility of becoming a responsible, balanced and a mature adult and is able to live in to contribute and to shoulder responsibilities of the society, of which he / she forms an integral part. Children need a supportive environment at home and at school. They need to set goals, within their reach until they gain confidence and determination. They should re-examine their priorities, set clean goals and make specific plans to achieve what they desire. Focusing on specific goals, helps them move forward purposefully in life. They would, thus, have the pleasure of watching their dreams into reality.

At Holy Angel's High School our approaches to learning is child centric encouraging Activity based learning and inculcating a scientific temper and a spirit of free enquiry. In our curriculum the student is the primary focus and each child is involved in the learning process. We are constantly improving our teaching methodology so that it turns learning into combination of classroom study, research and scientific discovery.

While academic excellence is our major thrust, the school is also devoted to prepare the students for life, groom them to face the challenges of tomorrow, and encourage them to be socially relevant. We constantly endeavour to always live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential, while constantly being groomed to pass out as men and women competent to bear responsibility in all walks of life.

The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. I pay my gratitude to them for their faith in us.

I am confident enough that the Angelians will make themselves stronger day by day, adding a new leaf to the grandeur of the school.

With best wishes and warm regards,

Mr. P. Lokesh, Principal

June – 2019

- 5 World Environment Day & Ramzan
- 6 School Re-opens
- 7 Bridge Course begins from I std to VIII std.
- 10 Last date for Payment of Fees
